

## Genesis 1:24-25 **Day Six of Creation**

<sup>24</sup> Then God said, "Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, each according to its kind"; and it was so. <sup>25</sup> And God made the beast of the earth according to its kind, cattle according to its kind, and everything that creeps on the earth according to its kind. And God saw that it was good. NKJV

Facts about creation of animal life on the earth:

- ✧ Each kind of creature was made **“according to its own unique kind.”**
- ✧ There was no transition from one kind to another, and each was commanded to reproduce **“according to its own unique kind.”**
- ✧ This applied to everything that moves on the surface of the earth and this still persists today in natural reproduction. Men have been able to manipulate things that God has created and change many of their characteristics, but it is *man's work* and has its own flaws and defects.
- ✧ Again God declared His work of creation as **“Good.”**
